

EDUCATION & CERTIFICATIONS

University of Illinois Urbana-Champaign

Master of Computer Science (Data Science, Part-time) | GPA: 3.8/4.0

Champaign, IL

Jan 2024 – Dec 2025

Relevant Coursework: Cloud Computing, Database Systems, Machine Learning, Deep Learning, Natural Language Processing

St. Cloud State University

Master of Engineering Management | GPA: 3.9/4.0

St. Cloud, MN

Aug 2022 – Aug 2024

Relevant Coursework: Big Data, Quality Engineering, Project Management, Agile Methodologies, Supply Chain

Thapar Institute of Engineering and Technology

Bachelor of Engineering – Electronics & Communications | GPA: 8.6/10.0

Patiala, India

Jul 2017 – Jul 2021

Relevant Coursework: System Design, Data Structures and Algorithms, Object-Oriented Programming, Computer Networks, Machine Learning, Digital Signal Processing

Certifications: Certified Associate of Engineering Manager (ASEM), Six Sigma Green Belt, Duke – AI Product Management, Google – Product Management

PROFESSIONAL EXPERIENCE

SOCAi Labs

Founding Product Lead

Dallas, TX

Dec 2025 – Present

- Led a **cross-functional team of 10+** across Product, Engineering, AI, and Design, establishing department-specific Jira workflows, prioritization frameworks, and release processes that accelerated product delivery from quarterly releases to bi-weekly deployments.
- Partnered with executive leadership, clinical advisors, and engineering teams to establish product governance processes, operational policies, and **FDA 510(k)** readiness initiatives, aligning product development with long-term regulatory and commercialization objectives.
- Directed a platform infrastructure modernization effort that scaled system capacity from supporting pilot deployments to **1,000+ concurrent users** while implementing observability and monitoring systems that reduced debugging and issue resolution timelines from days to hours.
- Designed and launched the **end-to-end customer on-boarding experience** spanning acquisition, account setup, training, activation, and adoption, creating repeatable implementation playbooks that enabled successful deployment across early clinical partners.

Infotron Solutions

Data Scientist

Los Angeles, CA

Jun 2025 – Dec 2025

- Acted as the technical consultant managing the end-to-end delivery of a RAG-based generative AI chatbot platform using **LangChain + Azure GPT**, reducing client manual reporting time by **25%**.
- Led requirement-gathering sessions with client stakeholders to translate business needs into a prioritized project backlog, aligning cross-functional teams on features, dependencies, and delivery timelines.
- Coordinated the deployment phases of cloud-native data pipelines via **Azure Data Factory + Databricks**, tracking project milestones to ensure a **30%** reduction in data latency for portfolio managers.

Humannity Medtec (Alfred Mann Foundation)

Software Engineer II (Promoted from SWE I)

Los Angeles, CA

Sep 2023 – May 2025

- Engineered technical solutions for a regulated telemetry platform based on problem statements defined by the Engineering Manager; directly managed a 3-person offshore SDET team to oversee user and unit testing execution for FDA-compliant dashboards.
- Delivered an ML anomaly detection feature by translating high-level management directives into actionable technical tasks, independently tracking implementation timelines to successfully achieve **1-minute alert latency**.
- Served as a Scrum Lead for a distributed team of 10+ engineers, facilitating Agile ceremonies to track capacity, remove technical blockers, and ensure 95% on-time sprint delivery.
- (SWE I) Co-developed an ML model for patient risk classification and designed patient-facing flows in **Figma**, managing individual project scope to ensure timely delivery for pilot testing.

ZS Associates

Decision Analytics Associate

Pune, India

Jan 2021 – Jul 2022

- Coordinated data deliverables and technical execution for an ML-driven customer targeting project, ensuring timely delivery of physician segmentation models that enabled a **2x market share increase in 18 months**.
- Managed execution timelines and tracked task progress for marketing analytics initiatives, optimizing campaign prioritization to drive an average **30% lift in ROI**.
- Supported the project integration roadmap for embedding **real-time ML recommendations**, monitoring deployment milestones to accelerate decision-making for 100+ field reps.
